SECTION 4 FIRST AID MEASURES

General: In all cases of doubt, or when symptoms persist, seek medical attention.
Never give anything by mouth to an unconscious person.

Inhalation: If inhaled, remove person to fresh air and keep comfortable for breathing.
If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.
If unconscious, place in the recovery position and seek medical attention immediately.

Skin:	In case of contact, immediately rinse skin with plenty of water. Remove contaminated clothing and shoes. If skin irritation occurs, seek medical attention. Launder contaminated clothing before reuse.	
Eye:	In case of contact, immediately rinse eyes with plenty of fresh, clean water for at least 15 minutes. Remove contact lenses if present and continue rinsing. Seek medical attention immediately.	
Ingestion:	Do not induce vomiting. Call a doctor or emergency medical facility immediately.

Indication of any immediate medical attention and special treatment needed:	No data available	

SECTION 5	FIRE FIGHTING MEASURES
------------------	-------------------------------

Extinguishing media:	Use carbon dioxide (CO ₂), dry chemical, or foam to extinguish flames.
Special hazards arising from the substance or mixture:	Hazardous decomposition products. May form CO and CO ₂ .
Advice for fire-fighters:	Self-contained full-face positive pressure breathing apparatus (SCBA) should be used. Water can be used to cool and protect exposed material. Do not allow runoff water and contaminants from firefighting to enter drains or water courses.

SECTION 6	ACCIDENTAL RELEASE MEASURES
------------------	------------------------------------

Personal precautions, protective equipment and emergency procedures:	Avoid contact with spilled material. Use suitable personal protective equipment. Ventilate area if spilled in confined space or other poorly ventilated areas. Evacuate personnel to safe areas. Keep unnecessary personnel away.
Environmental precautions:	Prevent entry into sewers and waterways. Report spills as required to appropriate authorities in accordance with all applicable regulations.
Methods and material for containment and cleaning up:	Ventilate the area and avoid breathing vapours. Take the personal protective measures listed in section 8. Contain and absorb spillage with non-combustible materials. Place in closed containers outside buildings and dispose of according to the Waste Regulations. See section 13. Clean preferably with a detergent. Do not use solvents. Do not allow spills to enter drains or water courses. If drains, sewers, streams or lakes are contaminated, inform the local water company immediately. In the case of contamination of rivers, streams or lakes, the Environmental Protection Authority should also be informed. Dispose of in accordance with local environmental regulations.

SECTION 7	HANDLING AND STORAGE
------------------	-----------------------------

Precautions for safe handling:	
Handling:	Avoid skin and eye contact. Wash thoroughly after handling. Avoid breathing vapour. Use with adequate ventilation.
In storage:	Store in a dry location at room temperature. Keep this container and vapours from the container away from heat and flame. Keep container closed and maintain all original markings and labels.
Conditions for safe storage including any incompatibilities:	Keep away from strong oxidizing and reducing agents. CAUTION: Do not use cutting or welding torches on drums, even when empty. Do not reuse container. Containers, even those that have been emptied will retain product residue and vapours. Always obey hazard warnings and handle empty containers as if they were full.
Specific end use(s):	There are no exposure scenarios, see details in section 1.
