

MOREY'S® UPPER CYLINDER LUBRICANT & INJECTOR CLEANER

MOREY'S® UPPER CYLINDER LUBRICANT & INJECTOR CLEANER is a combustion chamber cleaner providing protection against valve seat wear in engines designed for leaded fuel when they are operated on unleaded or low-lead petrol. Improves performance in all petrol powered engines.

Morey's Upper Cylinder Lubricant & Injector Cleaner is designed for use in unleaded and low-lead petrol at a recommended treatment level of 650:1

Features:

At the recommended treatment level, the intended functions of Morey's Upper Cylinder Lubricant & Injector Cleaner are:

- Cleans carburettors and injectors, keeps them clean, providing maximum performance
- Reduces rust and corrosion in all fuels
- Reduction in valve seat wear (recession)
- Reduction of inlet & exhaust port deposits
- Reduction of spark plug fouling deposits
- Reduction of toxic exhaust emissions
- Improved compression ring lubrication & sealing
- Improved combustion chamber cleanliness – regular use prevents reformation of deposits
- Improved fuel economy, quality & stability
- Improved starting, running & performance
- Keeps plugs clean for easier starting and smoother idling
- Keeps seals soft and pliable

Usage:

Economical: 30mls treats 20 litres of fuel

Use with Morey's® Power Booster or add to fuel tank before or after fill up (self mixing)

Bulk Storage Tanks: Add to tank prior to filling to ensure even dispersion throughout fuel.

- Approved by the EPA for use in vehicles to run on unleaded petrol.
- Safe to use with vehicles equipped with catalytic converters.
- Suitable as a lead substitute for unleaded petrol.
